## Pop Out | Walking Billboard

The Pop Out Walking Billboard is a single or double panel from the Pop Out display finished with a strap to be placed around the back of the neck or over the shoulders. It is not only effective but exceptionally lightweight compared to many solutions used in today's marketing campaigns. It allows the user to move about with ease and collapses to a compact storage size.

Combine any Pop Out with a Wind Sail product to create a stunning look for your next marketing event.

The Pop Out is built with two connecting panels that include Fiberglass poles to provide shape and flexibility along with hook-and-loop adhesive for easy assembly. A Carrying Case is included along with Ground Stakes to be used in a variety of situations.
